Any engineering college student not receiving his copy should fill address correction slip in College of Engineering Office.

QUADRANGLE NOTES

Roy W. Wildermuth, Ch.E. IV

Edmund Duplaga, Ch.E. IV

Jerry Brophy, freshman, passed proficiency exams amounting to 25 credit hours—what a beginning.

Jim Alexander, Engr. Physics II, passed 10 hours calculus proficiency—maybe he should be in mathematics.

Fred Bluhm and Bill Wagner, Welding Engr. II and III respectively, received the Arc Welding Scholarships of \$250 each this year.

Bill Reed, Engr. II and member of Circulation Staff, was awarded sixth place in campus competition for Fred Allen show on the basis of his performance with his harmonica.

Ellsworth Shriver, villain of last year's Quad Jesters melodrama, received an assignment in this Quarter's Strollers' production—more details in the next issue.

A few of our engineering students have developed technique and powers of observation to a high degree. One of them in reporting laboratory procedure recently stated that "The solution was agitated vigorously until it had completely settled." Exceptional eyesight must be credited to another student who observed, "The escape of an invisible gas was seen."

From Cornet to Bass Horn, students in the College of Engineering are doing their share in making the Ohio State Marching Band one of the outstanding organizations in the country. They comprise nearly one-fourth of the total membership of the band.

The thirty students who represent the Engineers are Ray Abel, Jr., Leroy Beckett, Ray Brumby, James Burford, Dalton Drake, Paul Ewing, Donald Farrar, Geary Hanlin, Eugene Harris, Edwin Heimlich, Richard Hoover, Robert Kenyon, Alexis Lemmon, James McNamara, Myrl Miller, Clarence Richards, Ralph Rosenthal, John Page, David Shapter, William Sims, Andrew Smith, Edgar Smith, Edwin Smith, Tom Swander, John Swinehart, Robert Thomas, Wilbur Tipton, William Wagner, Robert Walsh, and Leo Ziolkowski.

In addition, the representatives of the Military Department for the band is Samuel F. Stebelton and Claude White, Second Lieutenants, Corps of Engineers.

There is a certain instructor in the department of electrical engineering (one of the E. E.'s) who is very absent-minded at times. Recently he was observed striking a match—but there was no trace of a cigarette in his mouth.
